Section 7 of the guide: Your currency against the dirham: what to know before you transfer money to Dubai

What I check when I guide you

Written by Usama Haj Yahia, founder of U810 Properties | Last updated: 18.11.2026

I go through the payment plan and the date of each payment with the investor, so they know in advance how many dollars they will need and when. This allows them to decide with their bank how to convert. I do not give investment advice, and I do not recommend a conversion method. After the first consultation call, I can give you a quote. This depends on the sale process and the services you need.

In my own purchase in 2024, I converted money before each payment to the developer, rather than the full amount at once. That is what suited my situation at the time, and it is not a recommendation. The option that suits you depends on the dates, the amounts and where the money is. The decision is made with your bank.
